

Name: _____

Exercise B3, 10/8/04

Critical Review of Group Research Project

Task: Write a critical review for each of the presentations other than your own group's.

Here are sample review points (for each presentation):

1. Is the background explained?
2. Is the research question/problem identified and easily understood?
3. Is the cost/significance of the question/problem identified *and* convincing?
4. Is the response to the question/problem clear and reasonable (within the given time)?
5. Does the presentation follow the "research format," i.e.,
 - Introduction (background, problem/significance, response),
 - Body (solution to the problem),
 - Conclusion (results, significance, future).
6. Do you have any questions?
7. Did you find ideas shared by your presentation? Did you find ideas different from your groups'?
8. Do you have any suggestions for improvement?

Instructions/Notes:

1. Follow the general take-home exercise guidelines (as in Module A).
2. Identify the sections of your review by the group names [Crazy, Insane, Lunatic, Mad, Nuts].
.....
3. If you worked in a group (not necessarily the designated group) for this exercise, list the names of the group members.

Survey: Time spent between classes: _____

// End

Check List

Check points	Mad 2:05-2:17	Insane 2:20-2:32	Crazy 2:35-2:47	Lunatic 2:50-3:02	Nuts 3:05-3:17
1. Is the background explained?					
2. Is the research question/problem identified and easily understood?					
3. Is the cost/significance of the question/problem identified <i>and</i> convincing?					
4. Is the response to the question/problem clear and reasonable (within the given time)?					
5. Does the presentation follow the "research format," i.e.,					
• Introduction (background, problem/significance, response),					
• Body (solution to the problem),					
• Conclusion (results, significance, future).					
6. Do you have any questions?					
7. Did you find ideas shared by your presentation? Did you find ideas different from your groups'?					
8. Do you have any suggestions for improvement?
