## Exercise B6, 10/19/04

**Task:** Complete all the components of Module B Evaluation including

- Module B Evaluation Form (check all that apply, except for the item to be completed during the workshop)
- Supporting notes (you can show/send them to me in advance for comments)
- The second/final draft of your Module B Paper, reflecting the comments on the earlier draft

**Note: You must have these as hard copy. Print necessary documents well in advance.**

Further notes on writing (optional): If you were able to organize paper according to the guidelines and want to analyze your paper for additional criteria, use to the feedback key prepared by Prof. Konkle (English) available on-line:

<http://www.tcnj.edu/~komagata/fsp111/04f/Konkle-FeedbackKey.pdf>

This is recommended especially for those who will *not* take WRI102 during Spring 2005 (the exempt status can be found on your on-line transcript). If you used the Key, please note that you did so that the instructor can review those criteria as well.
